Russian	B1

Certificates

IELTS Academic: band 8 (20 Feb. 2024)
British Council Sofia Bulgaria

DELF: B2 (2 Oct. 2023)
République Française / France
Éducation International

Profile

I am an international student from Bulgaria studying Applied Computer Science at Thomas More in Geel. Driven to build a promising future, I chose to study abroad, leaving the comfort of family and friends for new opportunities and personal growth. Motivated and sociable, I balance my passion for basketball with a strong dedication to IT, bringing the same commitment and enthusiasm to both the court and the classroom.

Work experience

Student Software Developer **October 2025 - Present**
Olpas, Turnhout

- Developing a browser-based tool to configure and read sensor data via the Modbus protocol
- Implementing real-time serial communication and data handling using JavaScript
- Automating backend workflows by writing Python scripts to query the InfluxDB API, for CSV reporting.
- Securing live production VPS environments (running Docker and Nginx) using Fail2Ban and Tailscale VPN to mitigate bot traffic.

IT Skills

- **Languages & Frameworks**
  - Java (OOP/MVC), Python, PHP, TALL Stack (Tailwind, Laravel, Livewire), MySQL
- **Data & AI (Completed)**
  - Web Scraping (BeautifulSoup), Data Normalization (Regex), NumPy, OSEMN cycle.
- **Tools & Systems**
  - Git/GitHub, Linux/Bash, Cisco Networking (IPv4/v6, VLANs, Routing), UML Modeling.
- **In-Progress (Spring-Summer 2026)**
  - Deep Learning (CNN/Transfer Learning), Spring Boot, React, .NET Core, Qlik Sense.

Projects

- **SportsConnect | Full-Stack Platform (TALL Stack)**

-Developed a role-based recruitment platform for athletes using Laravel and Livewire.
-Built automated email notification and PDF roster generation systems to manage game vacancies.

- **Pro Cycling Analytics | Data Engineering**

-Engineered a Python pipeline to scrape and normalize multi-stage race data (Tour de France/Giro).
-Applied Regex and NumPy to standardize complex time-gap data for historical performance analysis.

Skills

- Sociable
- Stress-resistant
- Fast learner
- Adaptable

Interests

- AI
- Full-Stack Development
- Software Development
- Sports
